

POSITION PROFILE

Client Organization:	RYCOM Corporation
Position Title:	Senior Security Installation Technician
Reports to:	Field Operations Manager
Location:	Vaughan, ON

RYCOM is a trusted leader in Smart Tech solutions for public and private sector real estate, properties, and portfolios for over 20 years. The **RYCOM** team develops, delivers, and supports the innovative strategy and the integrated layers of technology required to create Smart Buildings today that meet the demands of the future. By staying at the forefront of technology solutions, utilizing best-in-class support models, and delivering quality services with the highest level of care and support, **RYCOM** simplifies technology for clients so they can focus on their core business while achieving operational, environmental, and measurable results.

Reasons to Join RYCOM

- A team driven by passion and a culture where people make a difference because we believe that every voice counts
- An entrepreneurial environment
- Opportunity to learn different parts of the business
- Employee Health and Wellness Program including nutritional counselling, yoga, and onsite gym (Vaughan office)
- Team fundraisers and events
- Comprehensive benefits program
- RRSP matching
- Employee training
- Compensation based on experience
- 3 weeks of paid vacation to start

OPPORTUNITY

We are looking for a dynamic individual who is not only well-versed in low voltage cabling for security and network infrastructure, but someone who wants to join a growing team. You will be part of the team to help our clients be more safe and secure. A desire to come up with innovative solutions and also get to install them, is a must.

RESPONSIBILITIES

- Install and program various CCTV, Access Control systems (Lenel, Software House, Amag,)
- Attend site visits and perform site surveys when necessary
- Provide ongoing, high quality customer support, analyzing customer needs and recommending innovative solutions

REQUIREMENTS:

- Minimum of 3-5 years of experience
- Experience installing, terminating, testing, troubleshooting and documenting test results for cabling, including CAT 6 and Fiber Optic Cabling
- Ability to install telecommunication equipment, routers and switches
- Must have a good knowledge and understanding of construction documentation and blueprint reading.
- Genetec and Avigilon certifications and experience a must.
- Knowledge of cabling standards
- Experience with several security platforms
- Knowledge and a strong understanding of IP security systems and how they perform on an IT network
- Understand and can install low voltage cabling and network infrastructures
- Able to accurately install, terminate and test all components and infrastructure
- Ability to demonstrate planning, organizing and implementation skills to lead to a successful project within budgeted time frame
- Excellent communication and customer interaction skills
- Superior customer service and problem-solving skills
- Must possess all basic hand tools
- Must be proficient in Microsoft Office (word, Excel and MS Project)
- A valid driver's license (clean abstract) and available to travel

Vaccination Policy

The health and safety of our employees is a RYCOM priority. Since we are a client serving business, candidates will be required to be fully vaccinated. Medical exemptions may be accommodated upon request.

COVID-19 precaution(s):

- Personal protective equipment provided or required
- Social distancing guidelines in place
- Virtual meetings
